### **REPORT ON SOLAR LAMP DISTRIBUTION TO THE SUGARCANE LABOURER PROGRAM**

**Solar Lamp Distribution Program for Sugarcane Laborers** organized by PIRENS Institute of Business Management and Administration (IBMA) as on 31<sup>st</sup> December 2019.

#### **Introduction:**

On 31st December 2019, PIRENS Institute of Business Management and Administration (IBMA) organized a Solar Lamp Distribution Program for sugarcane laborers at Manchi Hill. The program aimed to provide sustainable lighting solutions to improve the quality of life for the laborers working in the sugarcane fields. Prof. Dhananjay Borhade, Program Coordinator of Gandhi Gyan Solar Yatra Program, graced the event.

#### **Objectives:**

The Solar Lamp Distribution Program organized by IBMA had the following objectives:

- ✓ Provide solar lamps to sugarcane laborers to enhance their access to lighting.
- ✓ Improve the working and living conditions of the laborers by addressing their energy needs.
- ✓ Raise awareness about renewable energy and the benefits of solar power among the laborers.
- ✓ Promote sustainable practices and social responsibility among the participants.

#### **Program Details:**

a. Date and Venue: The Solar Lamp Distribution Program took place on 31st December 2019 at Manchi Hill, the location chosen for its accessibility to the sugarcane laborers.

b. Program Coordinator:

Prof. Dhananjay Borhade: Prof. Borhade, the Program Coordinator of Gandhi Gyan Solar Yatra Program, attended the event and played a significant role in organizing and overseeing the program.

### **c. Program Activities:**

**Introduction and Speech:** The program began with an introduction to solar energy and its benefits, delivered by Prof. Dhananjay Borhade. He emphasized the importance of renewable energy and the positive impact it can have on the lives of the sugarcane laborers.

**Solar Lamp Distribution:** IBMA distributed solar lamps to the sugarcane laborers, providing them with a sustainable lighting solution for their homes and workplaces. The distribution was carried out in an organized and fair manner to ensure equitable access to the lamps.

**Demonstration and Training:** The laborers received demonstrations on how to use and maintain the solar lamps effectively. They were provided with training on basic troubleshooting and ensuring the lamps' longevity.

**Interaction and Q&A:** The program allowed for interaction between the laborers and the organizers. The participants had the opportunity to ask questions and seek further clarification on solar energy and its applications.

**Participants:** Total 33 students were participated.

### **Impact and Benefits:**

The Solar Lamp Distribution Program organized by IBMA had the following impact and benefits:

a. **Improved Lighting Access:** The distribution of solar lamps addressed the lighting needs of the sugarcane laborers, particularly during the evenings and nights. It provided them with a reliable and sustainable source of lighting, enhancing their safety and productivity.

b. Sustainable Energy Adoption: The program promoted the adoption of renewable energy sources, specifically solar power, among the sugarcane laborers. By providing solar lamps, the laborers were introduced to the benefits of clean energy and encouraged to explore further opportunities for its implementation.

c. Enhanced Quality of Life: Access to lighting significantly improved the living conditions of the sugarcane laborers. It facilitated activities such as studying, cooking, and socializing after sunset, positively impacting their overall quality of life.

d. Awareness and Empowerment: The program raised awareness among the sugarcane laborers about the potential of renewable energy. It empowered them by providing knowledge and practical tools to improve their energy access, reducing their dependence on traditional and often environmentally harmful energy sources.

### **Conclusion:**

The Solar Lamp Distribution Program organized by PIRENS Institute of Business Management and Administration (IBMA) for sugarcane laborers at Manchi Hill successfully addressed the lighting needs of the laborers by providing sustainable lighting solutions. The program not only enhanced the quality of life for the laborers but also promoted the adoption of renewable energy sources and raised awareness about the benefits of solar power. The involvement of Prof. Dhananjay Borhade, as the Program Coordinator, added expertise and credibility to the program, Emphasizing IBMA's commitment to social responsibility and sustainable practices.
